Smile into Spring!!!

A natural, confident smile can make you feel great and also has an effect on how others see you. With new treatments like invisible braces, tooth whitening and facial rejuvenation treatments we can help give you the smile you have always wanted. Take a look at our website and join us on Twitter and Facebook for some fantastic offers and discounts!

Healthy Teeth For Life

Our new range of dental hygiene services includes our **Dazzle and Shine Polish**. ACP technology in our products means that the teeth are left whiter and shinier to give you a dazzling, healthy smile. Our dental hygienists now also provide **HALF PRICE** tooth whitening. This offer price of **£199.00** includes a 90 minute session of light activated tooth whitening, giving you up to 6 shades lighter than your starting shade.

Keeping a Healthy Smile!

Dental hygiene is a very important part of keeping a healthy smile.

Seeing our Dental Hygienists is essential to maintain a healthy mouth and ensure that any dental work carried out is kept in the best possible condition.

Our hygienists are specifically trained in the prevention of periodontal (gum) disease and dental cavities. They are keen to re-educate patients to help them achieve the highest standards of oral health at home and here at the Practice.

Did you know??

A person that smiles more is deemed to be more pleasant, sincere, attractive and more sociable than a non-smiling person!

Visit our fan page for up to date offers and discounts.
