## 'Healthy Teeth for Life'

## National Smile Month

National Smile Month 2011 took place in May and June under the tagline 'Smile Factor' and Westbury Park Dental Practice's dental therapist, Sabha Paish and dental nurse, Stephanie Birks, helped to spread the message of good oral health by organising an event at local school - Langdale Primary.

### Hot Tips for Dental Care on Holiday!

- ❖ Invest in a Dental Travel Kit especially if going to remote areas.
- ❖ Don't forget the charger for your electric toothbrush!
- ❖ Any 'sensitive' teeth can be treated with toothpaste containing fluoride.
- ❖ Keep up with your oral hygiene routine - don't forget your inter-dental brushes.

"Happiness  
is a Smile"

## Patient Participation Group

We are very pleased to announce the formation of a PPG - Patient Participation Group. Its aim is to build relationships, break down barriers and share information. It will also form a vital link between patients and the Practice. The Group will meet on a regular basis to discuss ways of improving our dental services, foster improved communications between the Practice and its patients, help patients take more responsibility for their health and provide practical support and help to implement change.

**If you wish to be involved - why not join us? Please ask at Reception for further details.**

*To all our patients, we wish 'Happy Holidays', see you soon...*
