

Dental Treatments

Tom is dedicated to preventative dental care and therefore works closely with his team of hygienists and therapists to ensure patients achieve the highest level of dental care possible.

As a new patient the aim of our team is to make the process of the initial consultation as relaxing and informative as possible. We will listen carefully to establish any concerns you may have before progressing with any investigation and providing fully-costed solutions.

Tom can offer a full range of dental treatments including:

- Anti-snoring appliances
- Clearstep
- Enlighten tooth whitening
- Fissure Sealants
- Inlays - Porcelain
- Smile Makeover
- Wisdom Teeth
- Bridges
- Crowns
- Fillings - composite
- Hygiene Treatments
- Root Canal Treatment
- Veneers

Further details with regard to any of the above treatments will be available upon your first consultation.
