Dental Fees

All treatment is offered on a private fee basis, and is based upon the time required to carry out a particular item of treatment. We will provide an estimate of the costs and will discuss fully with you both the treatment proposed and the estimated costs of the treatment before it is started.

We can offer you a variety of plans dependant upon your previous dental history. These will enable you to receive treatment for an affordable monthly payment.

Interest free credit

We can also offer patients Interest Free Credit to fund their dental treatment. Our 0% loans allow you to have the treatment you want, spreading the cost over a period of 10 months. It is easy and simple to repay by direct debit and, as this service is interest free it is a more affordable alternative to credit cards.
